

NEW PATIENT BROCHURE

THE COURTYARD CLINIC

MEET THE TEAM

The Courtyard Clinic is a beautifully restored listed building which provides a welcoming comfortable environment, whilst housing a state of the art, leading edge, 3 surgery dental practice; offering the very latest that modern clinical dentistry has to offer. We are open and accepting new patients now, despite any signs outside to the contrary!

The clinic will offer, as well as routine dentistry, all cosmetic dental treatments including tooth whitening, smile makeovers (some can be completed in one visit), orthodontics for adults (invisible braces), implants (to replace missing teeth), CEREC dentistry and facial rejuvenation treatments.

Whether you have a specific dental concern, or would just like to discuss possible treatment options and visit our facility, we would be delighted to offer you, your families and your staff a complimentary consultation to come in and discuss your concerns/wishes.

Please do telephone Alison our Practice Manager on 01932 582949 and she will be pleased to arrange a convenient appointment.

TREATMENTS

DENTAL AND FACIAL

At our Surrey Dental Clinic, we provide stunning cosmetic treatments including teeth whitening (home whitening and 1-hour power whitening), porcelain veneers, ICON white spot treatment, white fillings and teeth reshaping as well as clear orthodontics using "invisible" braces to create the perfect smile makeover.

To restore your smile by replacing missing, decayed or broken teeth, we use crowns, bridges, dentures, cerec and dental implants. Using the latest technology in dentistry we are able to offer teeth in a day, full mouth rehabilitation and complex restorations.

We also have expertise and great experience in oral surgery for extractions, root canal therapy for infections and sedation available for nervous patients. We offer the latest anti-snoring devices to help improve quality of life. Another state of the art appliance we offer is Cerezen which helps with dental grinding or clenching habits.

Our facial aesthetics treatments range from dermal fillers, lip & cheek enhancements, skin boosters and non-surgical injections to facial contouring, sunekos, facial peels and brightening. Whatever look you want to achieve, we have you covered.

Both Dr Wilkinson and Dr Lad are committed to on going education and regularly attend courses to update their knowledge. Dr Wilkinson has had experience in Dental hospital (The Royal London Restorative and Maxillofacial departments) and treated more complex cases and Dr Lad has broad experience in Private Practice.

HYGIENE SPA

As well as regularly visiting your dentist, hygiene appointments should also be an essential part of your dental care. Hygienists are qualified members of the dental team who focus on preventing and treating gum disease by promoting good oral hygiene.

Our services range from a simple scale and polish to fissure sealants and a deep cleaning treatment and oral cancer screening. You'll be amazed by how different your teeth will look and feel after only one treatment!

IMPLANTS

SMILE DESIGN

Here at the Courtyard Clinic we offer implant treatment from one of the best, Dr Bhavin Pitamber is our expert periodontist and implantologist with a very gentle touch, he has broad experience with placing implants and ensuring the soft tissue healing around them is optimum

We can take you from a broken denture to a full set of fixed teeth on implants in one day. Or perfectly match one tooth to the rest of your smile so that no-one will know the difference!
