DISCOVER POLYNUCLEOTIDES

# Discover ameela®

## THE SECRET TO FIRM AND HYDRATED SKIN

Ameela® is an innovative injectable solution based on natural polymerized polynucleotides. It is a highly moisturising gel that restores skin firmness and elasticity, and ensures healthy skin that is protected against cellular damage. A lift in skin structure is visible after just a few minutes!

The production of collagen gives a strong, specific lifting and revitalising effect that is suitable for all skin types. Injections of polynucleotides may be layered with hyaluronic acid-based fillers. Ameela® prolongs the activity of hyaluronic acid, lengthening its effects by around 40%.

Highly  
moisturising

Acts as an  
antioxidant

Reduces wrinkles  
and fine lines

Reduces dark  
circles + puffy eyes

# ameela eyes

## Treats the periocular area

Reduces eyebags, dark circles and wrinkles

Ameela® Eyes reduces eyebags and periocular wrinkles. It also thickens and restructures the tissue around the eyes, resulting in an improvement of superficial wrinkles without the use of fillers.

### INDICATIONS

Dehydrated Skin

Periocular Wrinkles

Dark Circles

Puffy Eye Area

Polymerised Polynucleotide Gel

# ameela® rejuvenation

**Treats the eyes, face, neck and hair**  
Tightens the skin and reduces wrinkles

Ameela® Rejuvenation restores skin tone and elasticity on the face, neck, hair and hands, reduces wrinkles and fine lines, and improves dehydration and deep hollowing in the periocular area.
